REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance.

The invention as claimed is directed to a laminated metal sheet, an easy-open can lid made from said sheet, and a process for making the can lid. The metal sheet comprises a film of crystalline saturated polyester resin laminated on at least one surface of the metal sheet. The polyester film has a thickness of 10-100 μm , an elongation of at least 150%, a degree of crystallinity of not more than 10%, and a crystalline heat of fusion of not less than 10 joules/g.

Leyre et al., and Iioka et al., and Oyagi et al. represent the closest prior art. Upon reconsideration and in view of the applicants' arguments, it is agreed that Leyre et al. and Iioka et al. do not teach or fairly suggest the use of a polyester resin film having an elongation of at least 150%, a degree of crystallinity of not more than 10%, and a crystalline heat of fusion of not less than 10 joules/g. Regarding Oyagi et al., while this reference teaches a polyester film having an elongation of up to 300%, the reference does not teach or offer any suggestion or motivation to one skilled in the art to use a polyester that also has a degree of crystallinity of not more than 10% and a crystalline heat of fusion of not less than 10 joules/g. Because crystallinity is not just a material property but also a function of other factors, such as processing conditions and additives, the polyester of Oyagi et al. (as well as those of Leyre et al. and Iioka et al.) cannot be said to inherently possess a crystallinity and heat of fusion of crystalline within the range cited in claims 1, 5, and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ramsey Zacharia whose telephone number is (571) 272-1518. The examiner can normally be reached on Monday and Tuesdays from 9 to 5.
